## IT IS A FACT

That thousands of our business men go to their offices in the morning after an uneasy night, or a late dinner, feeling dull and all out of sorts. This is entirely unnecessary, for a single dose of that sparkling, foaming specific, Tarrant's Seltzer Aperient, taken before breakfast, will immediately dispel all feelings of heaviness, remove gently but surely the cause, and quicken into healthy action every fibre of the system. For sale by all druggists.

### German-American Teachers.

Chicago, 3.—On the fourth day's session of the German-American Teachers' Association, a resolution was passed pledging support to the German-American normal school at Milwaukee. Debate was then resumed on Mr. Schuricht's paper on ethical culture in the schools, and after an extended discussion the matter was referred to a committee to report at the next annual convention. The committee on physical culture recommended the introduction of gymnastic exercises, especially calisthenics and the German fashion of taking pupils out for a whole day's tramp through the woods and fields, with lessons drawn from nature as observed. Mr. Eraisson read a paper giving points in favor of the general introduction of German teaching in public schools. Mr. Rathmann, of Cincinnati, presented a report from the committee on statistics, showing that in this country the German language is taught in 839 cities and towns, to 306,000 pupils, by 4,280 teachers, in the public schools, an increase during the year of 14,200 pupils and 200 teachers.

### The English Report—Informers Arrested.

London, 3.—In the Commons this afternoon, Dodson stated that although there had been no foot or mouth disease in Africa for the last four months, plumb existed in the eastern states. The government he said is unable, under the act of '78, to discriminate in favor of the western states.

The steamer Pathan has arrived at Melbourne from Adelaide. Kavanagh, Joseph Hanlon and Joseph Smith, informers in the trials of the Phoenix park murders, who were on board, were identified and prohibited from landing. Seven other passengers were on the Pathan, suspected of having been witnesses for the government in these trials, but they were not identified.

A powder mill explosion at Anjouleme, killed six persons and seriously injured several others. Damages to property, 1,000,000 francs.

Berlin, 3.—All the newspapers demand an inquiry into the case of Prof. Puttitz, who committed suicide because of drawing the death lot in the so-called American duel. Some papers allege that the duel was provoked by a Jewish lawyer.

London, 3.—Deaths from Cholera in Egypt, on Thursday, amounted to 702, including 106 at Cairo.

### Confederate Money.

Washington, 3.—There has recently been transferred from the War Department to the abandoned property division of the Treasury Department, a large quantity of Confederate scrip bonds, representing several millions of dollars, which it is said is now to be condemned and converted into pulp on the order of Secretary Folger.

### The Knights are Coming.

Chicago, 3.—Eminent Commander George D. Moulton, of St. Bernard Commandery of Knights Templar, who has just returned from a visit in San Francisco, during which he made arrangements for the pilgrimage of the commandery to the twenty-second triennial convocation of the grand encampment, said to a reporter, in reply: The object of the trip was to remove all snags in the route of the pilgrimage, and to make the rough places smooth. While in San Francisco I succeeded in having a change made in the headquarters of the commandery there from the Windsor to the Palace hotel. Our party will consist of members of the commandery, their friends, and ladies; (for mind you we intend to take our ladies along) the whole numbering over 120. We leave here August 10th, by a special train on the Chicago, Burlington and Quincy road, and our train will be one of the finest that has ever left this city. It will be composed mainly of palace coaches. There will be a hotel car, and the pilgrims will be supplied with all the delicacies of the season, furnished in the very best style through the entire trip. Our first stopping place will be at Kansas city; but we shall only remain there about a couple of hours. From there we go to Denver, and remain there over one day, and we shall have a carriage drive from Manitou to Colorado springs; we shall also have a dress parade in Denver. From there we go to Ogden and Salt Lake City, where we will spend two days. A special train will be furnished us there on the afternoon of the first day, by which we go to Garfield and have a bath in the Great Salt Lake. We then return to Ogden and go right through to Frisco. The Frisco commandery while I was there passed a resolution to send out a delegation of 50 Knights to meet us at Reno, 150 miles from San Francisco, and just at the commencement of the mountain scenery. We shall arrive in San Francisco on the evening of the 18th, and any who go with us may be sure of a right royal welcome. They are the warmest hearted people here in America. Sunday we shall attend church and on Monday will have a grand parade and review by the grand master. From then till Thursday our time will be taken up with drills, parades, etc., and on that day we will take part in laying the corner stone of Garfield's monument, which is being erected in the public park. Saturday we will have a grand dress parade and a prize drill. The St. Bernard Commandery will take along the champion banner, won from the Raper Commandery, and which belongs to the St. Bernard now beyond dispute, as the limited time has passed without a challenge. The commandery will enter the lists, and the technical prize drill, in which five trophies are offered. The trophies are among the finest specimens of art-workmanship that can well be imagined. Only three commanderies have as yet entered, but it is expected that there will be others. These three are the St. Bernard of Chicago, Kaper of Indianapolis, and Delmay, No. 12, of Louisville. Our visit to San Francisco will be a continual round of hospitality, receptions, public entertainments, etc. There will be representatives at the Triennial convention from nearly every commandery in the United States; but New York, Philadelphia, Baltimore, St. Louis and Chicago are the only places that send special trains. Most of the representatives from other places will join one or other of these excursion parties. We shall leave San Francisco on the return trip on August 26th, and will come right through without stopping at any place on the way. The same train that takes us there will bring us back. St. Bernard's Commandery will on this occasion form an escort to the Grand Commandery of Illinois. The Oriental Consistory has tendered its services as an escort to the St. Bernard's Commandery to the train as it leaves the city, which escort has been accepted.

### Monarchists Moving.

London, 3.—A dispatch from Paris says it is rumored that a plot to restore the monarchy has been discovered. The newspapers of France which profess to give the details of the plot say that 25,000 muskets for a popular rising has been ordered, and that an attempt has been made to tamper with the army. They also state that three conspirators were arrested.

### Stamps Sold.

Washington, 3.—Reports received at the postoffice from twenty-five large postoffices show an increase in the sale of postage stamps, postal cards, etc., for the quarter ending June 30th, 1883, over the corresponding period of the previous year of \$232,457, or about 6 per cent. These offices in the second quarter of 1882, collected about 34 per cent of the total revenue direct.

### More Knights.

Chicago, 3.—The St. Bernard Commandery and party, numbering over two hundred and fifty people, will leave here on August 10th for San Francisco.

### O'Donnell or Phelan, Which?

Kansas City, 3.—Belief is current among Irishmen that O'Donnell, who killed James Carey at Port Elizabeth last Monday, is identical with Captain Thomas Phelan, of this city. Phelan left here for Dublin about two months ago, ostensibly to look after a legacy left by some distant relatives, but little is known of his subsequent movements, except that he arrived in Dublin during the progress of the Phoenix murder trial. The description, as given of O'Donnell by the Cape Town correspondent, tallies exactly with that of Phelan, he being six feet high, about 45 years of age, dark hair, blue eyes, and with slight paralysis of one hand. Phelan has resided in this city about 25 years. He has taken an active part in local politics and been known as an avowed nationalist. He was a man of remarkable courage and withal an expert with a rifle or a pistol. He has given some public exhibitions in that direction. He received a wound in the hand, spoken of upon one of these occasions. He served as a union soldier during the war being captain of a company from this country. The matter, although talked of among Phelan's friends, has been kept very quiet, and nothing of the suspicions has yet appeared in the newspapers. An intimate friend said to night that while he had no actual information yet he felt confident that Phelan was the man who killed Carey. He stated that it was understood before Phelan left that he should travel under the name of O'Donnell.

Cape Town, 3.—O'Donnell, who killed Carey, the informer, was committed for trial on a charge of wilful murder. In the ordinary course of events he will be tried at Port Elizabeth in October. At the final examination of O'Donnell the box was produced belonging to the prisoner, labeled Cape Town and containing a wood cut of Carey and a paper of American citizenship dated Toronto, November, 1874. Carey's son was recalled and denied that Kelly, the Irish passenger on the steamer Kinsaua Castle, was identical with Kavanagh. He testified that his father was standing and talking to O'Donnell when he (witness) saw the latter draw a revolver and fire one shot. He (witness) then ran to fetch his father's revolver, the mother was holding his father when the third shot was fired. O'Donnell declared that Carey first drew a revolver, which he (O'Donnell) seized and fired at Carey in self-defense. He described himself as Patrick O'Donnell, aged 45, a native of Goodsell county, Donegan, a laborer formerly of Butler.

### The Tart.

London, 3.—At Goodwood, the Malcomb stakes for two-year-olds, was won by Talapae, with Hayne second, Gaylor third. There were five starters, including Lorillard's Pontiac.

Cleveland, 3.—A strong breeze blew up the home stretch all the afternoon, making the course two seconds slow. The 2:18 trot Santa Claus won in three straight heats, William H. second, J. B. Thomas third, Adle Gould fourth. Time, 2:20 1/2—2:19—2:19 1/2.

The free-for-all pace Richbalt won, Buffalo Girl second, Flora Bell third, Gem fourth. Time, 1:54—1:54 1/2—1:54—1:54 1/2.

The special match Jay Eye See won in the straight heats, Majolica second. Time, 2:04—1:54—1:54.

The twenty trot was postponed till to-morrow.

Saratoga, 3.—Second race, mile and 500 yards, was won by Capias, Referee second, Ballast third. Time, 2:10 1/2.

Third race three-quarters of a mile for two-year-olds was won by Conkling, Welcher second, Emigrant third. Time, 1:18 1/2.

Fourth race, mile and a furlong, for all ages, was won by Hartford, Heber Wallace, second; Blanton, third. Time, 1:58.

### Striking in Mexico.

City of Mexico, 3.—Five striking operators of the Mexican National Railway have arrived here, and state that they were employed as operators and afterwards given duties as station agents, for which bonds were demanded. They refused to give the bonds and demanded that their pay be increased \$30 a month. No attention being paid, they sent in their resignations on the 1st inst., and to take effect on the 2d, at 9 o'clock. The company refused to accept their resignations and the payment for July unless ten days' notice was given. The operators stopped work yesterday. Some vacancies on the line were filled yesterday and more operators go to work to-day. Passenger trains are running on schedule time. Some freight and construction trains are running, but under difficulties. The strikers are all Americans, except one, who is a Mexican. The telegraph company has lost none of its employees.

Another shock of earthquake was felt at Iachia on Friday. People rushed to the open country and returned to find their houses plundered. Five persons were rescued from the ruins on Friday.

### The Telegraphers' Strike.

Chicago, 3.—The reported grand movement on the part of operators that was talked about so much yesterday, has so far failed to materialize. Men continue to shake their heads ominously when spoken to about it, and say that it may be made at any moment. Each one professes the profoundest ignorance as to the nature of the blow about to be dealt; but it is emphatically asserted by all that when it is given it will preclude all possibility of a further continuance of the strike. It is generally believed that some sort of a plan is on foot to induce plug operators to stop work, and harness the Western Union into offering double and triple the wages now being paid in order to secure men. The feeling among the strikers is very bitter against the men who renounced the brotherhood yesterday and returned to work. Members of the board of trade are beginning to get exasperated over the existing state of affairs. It may be a fact, said one of them to-day, that the Western Union is coming around gradually, but we can't afford to have them come around gradually. Here we are prostrated for want of prompt telegraph communication, and are told that the company will be soon on its feet again. We do not want it soon, we want it now. We cannot afford to wait for months, or weeks, or even days, and unless some sort of settlement is made presently there is going to be a mighty big kick, and don't you forget it.

### Court Martial Approved.

Washington, 3.—The acting secretary of the navy approved the sending of court martial in the cases of Assistant-Engineers Entwistle and Leitch, charged with abandoning their posts of duty in a time of peril on the occasion of the loss of the Ashuelot.

### BRIEF TELEGRAMS.

A wind and hail storm blew the tower off the Lutheran Tabernacle, at Wooster, O., on Thursday night.

Miss Sarah Burns, aged 16, of Fayetteville, hung herself on Friday, because a young man who had ruined her, refused to marry her.

It is understood that Governor Blackburn has pardoned D. Ferguson, the tax collector who defaulted \$200,000. Great indignation is expressed.

It is stated that Informers Kavanagh, Joseph Hanlon and Joseph Smith were prevented from landing at Melbourne, because a plot to murder them had been discovered.

News from Hempstead county, Ark., reported everything quiet on Friday, but a general feeling of insecurity exists among whites and blacks. Total negroes killed, five, and eighty arrested.
